Explanation of Updates

Section 272.100 is being revised. It has been determined that when providers bill procedure code S5165, the U1 modifier must also be added in order for the claim to be processed. The change is being made retroactive for dates of services on and after October 13, 2003. Several procedure codes and related modifiers are being incorporated from official notices. Local codes and obsolete information is being removed from the section. A column has been added to indicate the need for prior authorization for each of the services indicated in the list.

Paper versions of this update transmittal have updated pages attached to file in your provider manual. See Section I for instructions on updating the paper version of the manual. For electronic versions, these changes will be automatically incorporated.

Thank you for your participation in the Arkansas Medicaid Program.
